EXCLUSIVE / ELITE FEATURES AT DPS KIDSZONE

MEALS AT SCHOOL

Eating a healthy diet helps children stay alert during class and eating together helps in learning manners and table etiquettes. Nutritious and delicious vegetarian food planned by qualified dieticians is served in a clean and hygienic spacious mess. Special care is taken to plan the menu in a way that keeps the children healthy and enthusiastic.

AIR CONDITIONED CLASSROOMS

DPS KidsZone has embraced technology and it provides advanced infrastructure. The KidsZone has been very tastefully and thoughtfully designed for Pre-Schoolers with Air Conditioned Classrooms and Activity Room, creating a dynamic environment which fosters learning and facilitates teaching.

INTERACTIVE SMART PANEL

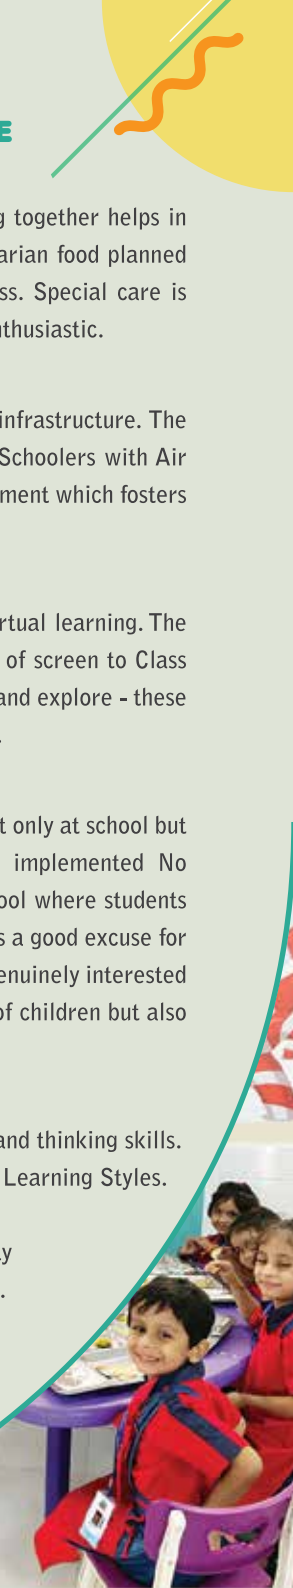

The classrooms have a 75-inch touch panel which helps children in virtual learning. The modules by TATA Class Edge help to cement the concept. The change of screen to Class Smart Board makes the class chalk and dust-free. A new way to learn and explore - these interactive panels have brought world-class learning to our classrooms.

BAGLESS SCHOOL

DPS KidsZone believes in Creating Personal Learning Environment not only at school but at home too. We have entered into a world of digital books and implemented No Homework Policy. As a result, we have stress free development in school where students could explore and learn in the various spheres. The lack of homework is a good excuse for parents to find out more about the activities and hobbies their ward is genuinely interested in. Reduction of workload not only brings ease to the physical burden of children but also lightens their emotional lives equally.
